ALLOWANCE & REASON FOR ALLOWANCE

1. The following is an Examiner's Statement of Reasons for Allowance:

Claims 1-8 are allowable over the prior art of record since the cited references taken individually or in combination fails to particularly disclose a method for defect detecting having a low pass filter with first and also "second threshold frequency, second threshold frequency being higher than the first frequency and second upper limit is greater than the first upper limit". It is noted that the closest prior art, Ushio et al. (US patent 4,189,745) shows a similar apparatus which has low pass filter and is detecting defects in similar fashion. Also AAPA also detects the defects in a similar fashion. However Ushio and AAPA fails to disclose second frequency and second higher and lower thresholds as disclosed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other prior art cited

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Ushio et al. (US. Patent 4189745) "Defect detecting apparatus".
